

Accessing the New Data Dialogue – Academic Page

Updated July 2022

Step 1: Log into the Data Warehouse and select **New Data Dialogue – Academic** under MyLinks/Help tab as shown below:

Step 2: Review the data for your school:

ELA Proficiency								
Grade	Subject	Different Students			Cohort Same Student Gain			SY22 Met Gain (District)
		SY21 FSA >= 3	SY22 FSA >= 3	SY22FSA-SY21 FSA %>=3 Comparative Gain	SY21 Spring FSA >= 3	SY22 Spring FSA >= 3	SY22FSA-SY21 FSA %>=3 Comparative Gain	
05	All	41% (62%)	30% (61%)	-10	46% (60%)	33% (63%)	-16	42% (63%)
	ESE	7% (26%)						22% (45%)
	ELL	17% (31%)	21% (32%)	3	26% (29%)	26% (35%)	-6	42% (57%)
	CAM	92% (82%)	59% (91%)	-42	76% (92%)	59% (91%)	-16	65% (73%)
	L25L	6% (23%)						35% (56%)

- **Subgroups:** These columns provide proficiency percentages (% of students scoring at Levels 3 and higher) for various subgroups of students, as well as the overall (All) percentage. Including Cambridge and Low25%.
- **SY FSA >= 3:** % of students scoring at Levels 3 and higher for the Different Set of Students in FY 2020-2021 and 2021-2022 School Year. The value in parentheses shows the district percentages.
- **SY22FSA-SY21 FSA %>=3 Comparative Gain:** Based on % >= 3. Is the standardized measure of change in performance from the prior year to the current year, taking into account differences in test difficulty from one year to the next. The comparative gain is the difference between the School Difference (e.g., SY22 FSA % >= 3 - SY21 FSA % >= 3) minus the District Difference. When this difference is positive (**green**), the schools' increase in performance was greater than the district's; whereas when the difference is negative (**red**), the schools' increase in performance was less than the district's (e.g., (30 - 41) - (61 - 62) = (-11) - (-1) = -10).
- **SY22 Spring FSA >= 3:** % of students scoring at Levels 3 and higher for the Same Students in FY 2020-2021 and 2021-2022 School Year. The value in parentheses shows the district percentages.
- **SY22 Met Gain (District):** the percentage of students who increase at least one (1) achievement level on the statewide standardized assessment in the same subject area. The value in parentheses shows the district percentages.

Step 3a: Click on **Dialogue Reflection Template** to input reflections and adjustments directly into Data Warehouse. **Note:** Users will know the template is open by noticing the Dialogue Reflection Template font is green.

Input data in boxes

Step 4: Review non-FSA/NGSSS/EOC information.

- Attendance: Below shows Students Attendance between the school and district.

Student Attendance Updated On (07-11-2022)			
Grade	School	District	Diff
KG	85.4	88.1	-2.7
01	91	92.8	-1.8
02	93.8	93.6	0.2
03	92.7	94	-1.3
04	95.1	94.5	0.6
05	93.4	94.4	-1

Elementary: Comparing your school to the district as shown below:

- iReady: Comparing your school to the district for Grades PK – 2nd and the difference between.

iReady Proficiency							
Grade	Subject	Different Students			Cohort Same Student Gain		
		SY21 Spring	SY22 Spring	SY22 -SY21 Comparative Gain	SY22 FALL	SY22 Spring	SY22 -SY22 Comparative Gain
